

PROJOLLY

SHOCKPROOF NON - TOXIC
COLORED VINYL RESIN

PROJOLLY is a rounded bead profile in shockproof non - toxic colored vinyl resin that can be applied on external corners of coverings. It can be used to close the perimeter of coverings. Its particular section, the availability in different colours also on demand and special pieces such as internal and external corners make **PROJOLLY** a much sought-after profile. It can be easily matched with the wall covering and allows an elegant workmanlike application.

EXAMPLES AND INSTRUCTIONS FOR LAYING METHODS

1. Choose "PROJOLLY" according to the tile thickness and desired colour. 2. Cut "PROJOLLY" to the desired length and apply the adhesive on the support where the profile will be laid. 3. Press the anchoring flange of "PROJOLLY" into the adhesive. 4. Lay the tiles, aligning them with the profile leaving a 2 mm joint. 5. Fill the joints between the profile and the tiles with grout, in order to avoid water stagnation.
