

PROLISTEL ALL are a range of decorative profiles/strips that are ideal for creating instant chromatic effects on ceramic tile/marble/mosaic coverings. Thanks to their design, shape and thickness, **PROLISTEL ALL** may be laid using the same adhesive as the tiles or parquet to create horizontal and vertical lines on either the wall or floor irrespective of the thickness of the covering. Various finishes and widths available in anodised, polished and brushed aluminium. Match with the same basic colours in the **PROJOLLY**, **PROTERMINAL**, **PROBORD** and **PROJOLLYSQUARE** ranges.

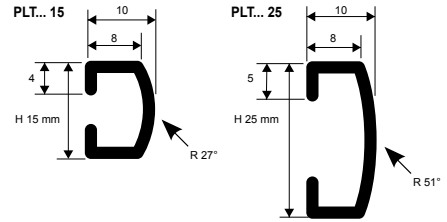

PROLISTEL ALL

ANODISED, POLISHED and BRUSHED ALUMINIUM

ANODISED ALUMINIUM (silver-copper-titanium) thermo packed
bar length 2,7 LM - packaging 40 Pcs - 108 LM

Article	H mm		
PLTAA 15 (anod. silver)	15		
PLTAR 15 (anod. copper)	15		
PLTAT 15 (anod. titanium)	15		
PLTAA 25 (anod. silver)	25		
PLTAR 25 (anod. copper)	25		
PLTAT 25 (anod. titanium)	25		

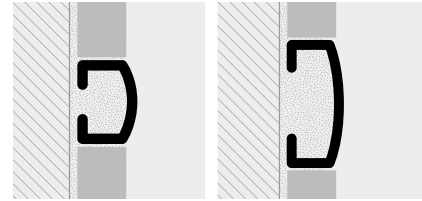

POLISHED ALUMINIUM (chrome-titanium-copper) thermo packed
bar length 2,7 LM - packaging 40 Pcs - 108 LM

Article	H mm		
PLTBC 15 (polished chrome)	15		
PLTBR 15 (polished copper)	15		
PLTBT 15 (polished titanium)	15		
PLTBC 25 (polished chrome)	25		
PLTBR 25 (polished copper)	25		
PLTBT 25 (polished titanium)	25		

BRUSHED ALUMINIUM (silver-copper-titanium) thermo packed
bar length 2,7 LM - packaging 40 Pcs - 108 LM

Article	H mm		
PLTBS 15 (brush. silver)	15		
PLTRS 15 (brush. copper)	15		
PLTTS 15 (brush. titanium)	15		
PLTBS 25 (brush. silver)	25		
PLTRS 25 (brush. copper)	25		
PLTTS 25 (brush. titanium)	25		

EXAMPLES AND INSTRUCTIONS FOR LAYING METHODS

1: Choose the preferred finish. 2: Spread the adhesive on the place of application. 3: Apply and align the profile, after cutting to length. 4: Lay the tiles/ceramic or spread the resin, aligning the profile so that the top is flush.

COLOURS

(for a precise assessment of colours and finishes, see the relative enclosed sheet)

PROLISTEL S ALL are a range of decorative profiles/strips that are ideal for creating instant chromatic effects on ceramic tile/marble/mosaic coverings. Thanks to their design, shape and thickness, **PROLISTEL S ALL** may be laid using the same adhesive as the tiles or parquet to create horizontal and vertical lines on either the wall or floor irrespective of the thickness of the covering. Various finishes and widths available in anodised, polished and brushed aluminium. Match with the same basic colours in the **PROJOLLY**, **PROTERMINAL**, **PROBORD** and **PROJOLLYSQUARE** ranges.
