FOR PRECAST CONSTRUCTION AND FAIR-FACED IN-SITU CONCRETE

MIGUTEK

JOINT COVERS FOR EXPANSION JOINTS

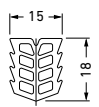

- 1 High quality EPDM material**
Hard wearing, temperature resistant (-30°C to +120°C)
- 2 Easy installation, secure fixing and good surface pressure**
by special design of the side bars
- 3 High durability**
due to excellent permanent elasticity of EPDM material
- 4 Excellent sound and thermal insulation**
due to special cellular design of the expansion joint

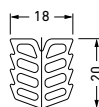

Expansion joint cover	Joint width required b_s [mm]	Total movement [mm]	Joint depth h_2 [mm]
